## PROFESSIONAL SUMMARY

---

**Electronics and Computer Engineering student** with a **strong foundation in programming, object-oriented design, data structures, and database management systems**. Proficient in **Java, C, C++, Python fundamentals, HTML, CSS, JavaScript, SQL, and MySQL**. Experienced in **applying algorithmic thinking and structured coding practices** while working on **academic and web-based projects**, with a focus on **building functional, maintainable, and database-driven applications**.

## TECHNICAL SKILLS

---

- **Programming Languages:** Java, C, C++, Python (Fundamentals)
- **Backend Development:** Java, PHP, CRUD Operations
- **Database Technologies:** SQL, MySQL, Oracle Database
- **Frontend Development:** HTML5, CSS3, JavaScript
- **Core Concepts:** Data Structures and Algorithms (DSA), Database Management Systems (DBMS), Object-Oriented Programming (OOP), Computer Network(CN), Operating Systems(OS)
- **Data & Analytics Tools:** Microsoft Excel, Power BI
- **Development Tools:** Visual Studio Code, Eclipse IDE, Git, Github.

## PROJECTS

---

### 1. SND Cloud kitchen

Technologies: HTML, CSS, JavaScript, PHP, MySQL.

- Developed a responsive cloud kitchen website with online menu browsing, food ordering, and customer inquiry features.
- Built a PHP–MySQL backend to manage customer orders, contact requests, and menu data efficiently.
- Improved customer experience through intuitive navigation, mobile-friendly design, and streamlined order management.

### 2. Blessed Frames

Technologies: HTML, CSS, JavaScript, PHP, MySQL, InfinityFree.

- Developed a web platform for storing and sharing memorable photos and special moments.
- Implemented image upload and gallery management features using PHP and MySQL for efficient data handling.
- Designed a responsive user interface to provide a seamless viewing experience across devices.

## INTERNSHIP

---

### 1. Web Development Internship

I have completed 3 months of web development internship. Learned how to build real world web-application.

Technologies learned – HTML5,CSS,Javascript,PHP,MySQL

## EDUCATION

---

### B.Tech – Electronics & Computer Engineering

2025 – 2028

Sharad Institute of technology College of Engineering, Ichalkaranji

CGPA: 7.9

### Diploma – Computer Engineering

2022 – 2025

Sharad Institute of technology, polytechnic, Ichalkaranji

**Percentage: 85.66%**

**SSC – Manere High School, Ichalkaranji**

**2012-2022**

**Percentage: 86.00%**

## **CERTIFICATES**

---

- Professional 'C' language course by AICPE
- Gen AI - Google Cloud Skill Boost
- LetsUpgrade – Basic SQL Certification

## **PROFESSIONAL SKILLS**

---

- Effectively conveyed technical concepts
- Collaborated with team members on projects
- Quickly learned and applied new technologies

## **EXTRACURRICULAR ACTIVITIES**

---

- Vice- President of COMPESA
- Volunteer for National-Level Tech Events
